

Special service arrangements for Rotherfield bus services until 20 Oct 2019:

Route 252 buses won't be able to serve Rotherfield from 24 June for up to 4 months but a special shuttle bus service will run to link with the route 251/252 service between Tunbridge Wells and Hailsham/Eastbourne.

Access to Rotherfield will be limited to smaller vehicles from 24 June until 21 October (subject to South East Water works schedule).

Route 252 buses will be unable to serve Rotherfield but a Shuttle Bus will be supplied linking Rotherfield (The King's Arms) and Mark Cross (Mark Cross Inn) to connect with route 251/252 buses on the main route.

The last two 252 journeys of the day will operate via Sybron Way in Crowborough.

No fares will be charged on the Shuttle Bus which will be operated by Autocar on behalf of East Sussex County Council. This has been funded by South East Water.

You can view the special shuttle bus timetable [here](#) which shows connections with route 251/252 buses from and to Tunbridge Wells and Hailsham/Eastbourne. Please follow @StagecoachSE on Twitter for regular service updates.

Service 226 (Crowborough – Rotherfield – Mayfield) will divert between Rotherfield and Argos Hill via Mark Cross and the A267. Certain journeys may be delayed because of this.

Rotherfield's other (off-peak and infrequent) routes 224/225 will be able to operate as normal throughout this phase of works. Schools service 227 will also run as normal whilst the closure is on High Cross but will need to divert after the work switches to Bicycle Arms Road.

East Sussex County Council has details of these changes [here](#)
